Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

This action is responsive to applicants' amendment and response received January 25, 2007. Claims 1-8, and 11-20 are currently pending.

#### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

The rejection of claims 1-8, 11-14, and 16-20 under 35 U.S.C. 102(b) as being anticipated by Graham et al, US 6,063,745 is withdrawn in view of applicants' amendment and response.

2. Claims 1-8 and 11-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Zhang et al, US 5,604,189.

Zhang et al teach a contact lens cleaner comprising polyquaternium-10 which is a cationic cellulose polymer which satisfies the cationic polysaccharide presently claimed, PHMB, 0.05% poloxamer, chelant, buffer, tonicity agent, and the balance water (col. 12, example 39). As this reference meets all material limitations of the claims at

hand, the reference is anticipatory.

Applicants have traversed this rejection on the grounds that the reference does not teach a cationic polysaccharide. The examiner disagrees and maintains that polyquaternium-10 is a cationic polysaccharide.

The rejection of claims 1-13 and 16-20 under 35 U.S.C. 102(b) as being anticipated by Asgharian et al, US 6,228,323 is withdrawn in view of applicants' amendment and response.

The rejection of claims 1-8, 11-14, and 16-20 under 35 U.S.C. 102(b) as being anticipated by Soyer et al, US 6,207,628 is withdrawn in view of applicants' amendment and response.

3. Claims 1-8 and 11-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Hu et al, US 6,702,983.

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Hu et al teach a contact lens cleaner comprising polyquaternium-10 which is a

cationic cellulose polymer which satisfies the cationic polysaccharide presently claimed, chlorhexidine, 0.07% poloxamer, chelant, buffer, tonicity agent, and the balance water (col. 12, example 6). As this reference meets all material limitations of the claims at hand, the reference is anticipatory.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
